THE WIFE OF LEON, and other Poems, by two Sisters of the West. New-York, D. Appleton & Co.; Philadelphia, George S. Appleton.

This volume is the associate production of two sisters, residents of Kentucky, and highly distinguished. It is published with the wish to "gratify a parent to whom they could refuse nothing," and is stated to have been composed with no previous intention of publication. So generally dull and spiritless are those poetical works which plead the solicitation of others, whether friends or relatives, as the motive or inducement to publication, that we are agreeably surprised to find this work a very creditable exception to the rule of impression which the plea patronimic has left on the public mind. In sentiment it is pure and will amply repay him. healthy, and treats sweetly and feelingly of the affections-in language it is free from those im- SERMON, by a Layman of the Protestant Episcobecilities which betray poverty of expression, pal Church, has just been published by J. That bound my soul to thee, Oh, early love! whose gentle ray Was a world's witchery. To me thy memory comes back, When dreams are on my brain! And oft thy low and sighing voice

Rings on my car again! A requiem low of hope and truth, Its dirge-like accents swell; Alas! thou shining star of youth, I loved thee all too well. Earth's plains have sunny garlands yet,

That springing hearts may weave; But the sad soul where reigns regret, Those blooms untouch'd will leave. There is no beauty in the wreath Whose rarest flowers lie dead; There is no joy in life and breath,

When truth and hope have fled.

LECTURES ON THE EPISTLE OF PAUL THE APOSTLE TO THE ROMANS. By THOMAS CHALMERS, D. D. and LL. D. Second Edition. New-York. Robert Carter, 58

Should with my love depart.

This volume contains one hundred discourses upon the Epistle to the Romans-generally deemed by divines the most important book in the Bibleconsidered at least in reference to the philosophy of Christianity-and the most difficult of interpretation. The distinguished author enjoys a reputation which would secure to the work a candid welcome in every part of the Christian world .-He has long been celebrated as one of the most eloquent preachers and profound theologians of Great Britain, and the part he has taken in the recent secession from the Established Church in Scotland has commended him still more warmly to the hearts of all lovers of religious freedom .-The book is a thick octavo of above five hundred pages, printed in double columns and in a neat and perspicuous style. We commend it to the favor of all our religious readers.

THE CHURCHMAN'S COMPANION IN THE CLOSET. Edited by F. E. Pager, M. A., N. V. D. Appleton & Co., 200 Broadway.

This is a beautifully printed little volume compiled with great care from the writings of LAUD, ANDREWS, KEN, HICKES, KETTLEWELL, SPINCKLE, and other eminent divines of the Church of Eng-Devotion, commended by the Editor earnestly to land and intended as a complete manual of Private "the many who seem now to be gradually and faithfully working their way back to the old paths from which the Church has wandered." The book contains an extended Preface by the Rev. Mr. Spinckle and is reprinted from the sixteenth London Edition.

Many of the philosophical discussions have been dropped-irrelevant matter has been exscinded and the size of the work has thus been considerably reduced. The compiler has prefixed a brief and comprehensive memoir of the distinguished author.

This is a collection of Prayers intended as the 'Domestic Minister's Assistant.' The author is previously known to the religious public as the author of several volumes of Sermons, Discourses, &c. He has also added an Appendix containing a number of Select and Original Prayers for particular services. It is published in a very neat shape and will prove an acceptable work.

The gentlemen of the Express and Journal, and, in fact, the Press in general, overlook one great fact which exists in Society around thema frightful fact, which appeals in tones of woe and suffering for their consideration :- it is HUMAN TT "AN AMERICAN APPENDIX TO DR PUSEY'S MISERY!

Can any thing be done to remedy the Poverty. Wretchedness and complicated Misery which now exist and oppress so many of the members of the Human Family-rendering existence to them a burthen and a curse, instead of a boon and a blessing? There are at this moment, in the City of New-York alone, thousands of persons to show that these men and churches differed not who are out of employment, and who are besieged by want and privations, harassed by kill-HEWET has just issued No. X. of his fine ing anxieties for themselves and their families, illustrated edition of the Book of Common Prayer. and exposed to semi-starvation; there are multitudes of children growing up in ignorance and destitution, neglected or ill treated, exposed to temptations of all kinds, and preparing to be the inmates of prisons, and many, perhaps, the victims of the scaffold. There are hundreds of families residing in damp and confined cellars. wretched hovels and garrets, inhaling a miaspublished by Carey & Hart. It contains a plate. matic atmosphere, and living on the most miserable food; there are weak, and sick, and helpless beings left without care or a succoring hand to lend them a little aid; there are mothers who see their children exposed to cruel sufferings and privations which it is out of their power to relieve :- wretchedness under all these and a thousand other forms surrounds us, wearing out the frames and torturing the souls of our fellow ereatures. Should not something be done?should not some great remedy, commensurate with the extent of the evil, be sought ?- should not the question at least be broached and discussed ?-or should dead silence be left to prevail

Or, perhaps, a question which should first be asked of the Journal and Express is-Whether Human Misery can be done away with? If they assert that it cannot, that suffering and evil are to be the eternal lot and destiny of Mankind upon earth, there is nothing more to be said; but even then they will teach-if not in words, by practical example-that every one should strive to get as many of this world's goods as possible, and in this great scene of strife, hap-hazard and suffering, to secure for himself individually as much happiness as he can. This, however, is a frightful doctrine; it virtually denies all universality of Providence, and sets up in the place the doctrine of Chance and blind Fate.

If, on the other hand, those papers agree that Human Misery can be done away with, and Man can be elevated and rendered happy on this earth, then they should discuss conscientiously the question of the means by which these sacred ends can be attained,-and the subject should never be abandoned until a solution is found; every consideration of justice and philanthropy, as well as love to God and love to the neighbor, render this course an imperious duty on the part of those who adopted respectfully to solicit the and of the month of the continuous many bears to the Specimens and Philosophical Apparatus may be sent to the Library Room, No 161 Dunne street, which is opened every Wednesday evening from 7 till 10 o'clock. a constant supply of proper nutrition, (which is pure blood.)
so long will the music continue; but when the source becomes
impure, this wonderful instrument will shortly cease its movemengs, and it is found that life is simply the sum of the functions that resist death. If proper medicine is administered
while there is strength left in the constitution, disease may be
subdued and the patient restored to perfect health.

Sands's Sarsaparilla, compassed entirely of vegetable extracts, has been tried and fully proved, in a wide range of diseases, to be all that is required to dispel disease and re-establish
a healthy action. Rheumatism, Lumbago, Paiu in the Bones,
Ulcers, Scrofula destroying the glands, Nervous Affections,
Salt Rheum, and other cutaneous diseases arising from an impure and depraved tatte of the blood, will be safely and effectually cured by its use. Patients, after suffering for years with
chronic constitutional disorders, have speedily regained health

WASHINGTON ELIXIR.—A pure vegetable W ASHING TON ELITAR.—A pure vegetable compound.—"Nature's God has secreted in the vegetable kingdom, safe, sure and speedy remedies for all diseases; to search for and discover these, is a part of man's allotted toil." This well known assertion of Dioscorides, one of the most profound of the ancient philosophers, has received another evidence of its truth and wisdom, in the discovery of the Washington Elixir, which, for its many virtues, may be called a God-send to the afflicted! SCARPA'S OIL FOR DEAFNESS.—Important for the Deaf.—We commend to the particular attention of those desirous of having their hearing restored "Scarca's Oil for Deafness." We hear it highly spoken of by those who have used it, and who of course know its value.

The following facts must be read with interest, particularly by Mr. Chelmford's numerous friends and acquaintances:

New York, Nov. 18, 1842.

My Dear Sir—It has become so common lately to puff medicines by letters, that I would now refrain from any expressions of my feelings or opinion, did I not feel compelled to speak in justice to you, and out of a desire to serve my fellow men. You remember with what reluctance I was induced to try Scarpa's Oil for Deafness, for I felt convinced, after many ineffectual attempts, that a deafness of ten years' standing could not be cured by any medicine; but will you believe it when I tell you on my second bottle I can hear almost as well as any member of my family. The effect upon me has been magical—my former existence seems like a dream; and the pleasure of listening to and hearing conversation carried on in an ordinary tone of voice, after being so long subjected to the use of the ear trumpet, is almost transporting. I do not much like to have my name in print, but as the above statement may do some good, I have no objections to your using it.

Mr. B. Barton Gumpert, Philadelphia.

Dr. B. Bell—Dear Sir—I take this opportunity of expressing

L. M. CHELMSFORD, 33 Washington st.

Mr. B. Barton Gumpert, Philadelphia.

Dr. B. Bell—Dear Sir—I take this opportunity of expressing my gratitude to you for the great benefit I have received from the use of "Scarpa's Oit." for Deafness. From a cold I caught six years ago I had become quite deaf; so much so that I lost all relish for society. But I felt it most in my business. I was really quite tired of doing business—it was so much an effort for me—I had tried a number of I hysicians and got no better, and thinking very little of patent medicine, I thought my case was hopeless; I was, however, induced, wren in your city last summer to try "Scarpa's Oil." I have been using it now about two months, and I think I hear as well as ever. I feel as though I was the happiest man in the world, This Oil may not cure every one, but as it has done me essential service, I would recommend it earnestly to all the deaf.

Read the following editorial from the Times:

Deafness, and we are assured that it is unsurpassed by any thing known for the purpose. One or two instances of its curative effects have been pointed out to us that are really astonishing. To THE DEAF—We heard so much lately of a remedy for Deafness, called "Scarpa's Acoustic Oil," that we are led to give it this passing notice. We believe, however, the medicinc is for sale only in Philadelphia; but if it have half the virtues we hear ascribed to it, the trouble of ser ding for the article would be amply repaid by its use. We have friends who have used it successfully, and who believe it to be the best remedy ever yet proscribed.

None genuine unless with the words "SCARPA'S OIL."

WHO WILL BE BALD OR GREY-HEAD-VV ED when, for the low price of three shillings, a splen-did head of hair can be had? Reader, this is no puffing. Read

this:

[From the New-Yerk Tribune, January.]

"We see that Judge Edwards, of Philadelphia, a man over 70 years of age, the top of whose head was as bald as the palm of one's hand two months since, has now fine dark hair growing fast, from the use of Jones's Coral Hair Restorative."

This positively forces the hair to grow, stops its falling off, cures scurf or dandruff, and makes light, red or grey hair grow dark. It dresses the hair beautifully, and keeps it in order twice as long as any other preparation. Sold for three shillings a bottle, at the sign of the American Eagle, 82 Chathamstreet, N. Y., or 139 Fulton-street, Brooklyu; 3 Ledger Buildings, Philadelphia, and 8 State-street, Boston.

ANDRUFF, or Loss of Hair, 18 caused by a Danguid or obstructed circulation in the small blood-vessels which supply the scalp and hair with nourishment, in consequence of which the perspiration becomes thick and clammy and dries on the surface, forming a crust; called dandruff, which clogs up the pores of the skin, and by its pressure against the roots of the hair prevents it from receiving sufficient nourishment to feain vitality. The hair then becomes harsh and unpleasant, dianges color and falls off. This unhealthy affection is very speedily and effectually cured by JAYNE'S HAIR TONIC, which revives the dormant powers of the surface vessels, removes the dandruff, and produces a new and healthy growth of hair to supply the old; and baldness is prevented or removed where is already exists.

The following certificate is selected, which sufficiently proves its extraordinary virtues:

Messrs A. B. & D. Sands: Gentlemen—As an act of justice to you and Dr. Jayne, I send you this certificate to inform you of the invaluable benefit my wife las received from the use of Dr. Jayne's Hair Tonic. She used two bottles before we could discover the hair had started, and commencing with the third, it started to grow out finely, and in a few weeks head and eyebrows were covered with a thick growth of fine black hair, better than she had lost. I think it was entirely produced by the use of the Tonic, and would recommend it to all who need a similar remedy.

Truly yours, JOHN N. JACKSON.
